Client *Portfolio* testimonials

Drawingtabs.pk

Already equipped with a social media presence and website, this client required strategic adjustments highlighted by our audit. After implementing these changes, our marketing campaign generated sales from the first month, achieving an average ROAS of 18 within 3-4 months.

Strut-Satchel

We transformed this physical store specializing in ladies' bags into a successful online brand. We established their social media presence, built a custom website, and managed their marketing campaigns. Within a month, they began receiving orders and saw consistent growth.

SM Language Academy

An online English academy aimed at mothers of 7-12-year-olds and young women. Despite the challenge of reaching this precise audience, we succeeded through targeted WhatsApp campaigns. Within 20 days, we generated quality leads and meaningful engagement with their ideal audience.

Mursaleen Dawakhana

We already had a website and social media, but sales weren't great. Honestly, I didn't know what was missing. Extronium took over, and within two months, we saw a huge difference! Our ads started working, and we made way more than we spent. It was surprising how quickly things turned around!

Libaaswala.pk

When we launched our website, we weren't sure how to get sales. The Extronium team guided us step by step. At first, they got us quick sales through WhatsApp, which helped us keep things running without spending too much. Meanwhile, they kept bringing more traffic to our website. Now, we get steady sales directly on our site, and business keeps growing every month!

PakAid Welfare Trust

A friend recommended Extronium to us when we were planning our Ramadan donation campaign with Mufti Tariq Masood sahab. We didn't really know much about online ads, but they handled everything. Google, YouTube, all of it. Alhamdulillah, we got the kind of response we were hoping for. They really did a great job, and we're thankful for their support.
